

## INSANITY PLEA FOR MRS. PROSSER MADE

Attorney Also Contends Wife  
Justified in Killing Her Di-  
vorced Husband.

SPOKANE, Wash., Aug. 17.—When court convened today at Libby, Mont., to resume the trial of Mrs. Reese Prosser for the murder of her divorced husband, Sheriff M. A. Shanahan was recalled for the state and testified that when Mrs. Prosser was arrested in Libby she had \$250 in cash and some valuable diamond jewelry.

Before any witnesses for the defense were called, Attorney Long addressed the jury, outlining the defense which would be made. He said the evidence would show that during the five years that the Prossers were married Mrs. Prosser was always madly in love with her husband, but that he treated her brutally and that when the shooting was committed she was mentally irresponsible. He said that it would also be shown that the circumstances at the time of the killing were such as to justify the act.

The deposition of Dr. W. S. Morris of Cleveland, O., was read. He told of having attended Mrs. Prosser at Lisbon, O., after Prosser had beaten and kicked her. The woman at that time, the deposition said, was temporarily insane.

**Acute or Chronic—Which?**

No matter if your kidney trouble is acute or chronic, Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy, and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." Schramm-Johnson Drugs, five stores.

## MAY DIE IN TIME TO ESCAPE INVESTIGATION

NEW YORK, Aug. 17.—Adolph Gabriel, confidential clerk for a New York leather company, is dying of typhoid fever in his underwear, unconscious of the fact that an examination of his books, made since he became ill, has revealed discrepancies which led a supreme court justice yesterday to issue an attachment against him for \$36,000. Gabriel had been in the employ of the concern for ten years, and such confidence was reposed in him that no examination of his books had been made in several years. According to his employers it was discovered soon after he fell ill that he had filled in several checks for amounts greater than were indicated by the stubs or by the cash book. An examination followed and showed, it is alleged, that he had converted the difference to his own use, between September, 1907, and July, 1910, at least \$6000 being missing.

The court order obtained by his employers attaches his bank account, his private safe, the contents of which no one but the unconscious man knows, and a check for \$7452, which Gabriel entrusted to a life long friend in the first days of his illness.

Most of the money, however, is believed by officers of the leather company to have gone into unsuccessful ventures in Wall street.

## WEATHER FORECAST FOR THURSDAY

Forecast for Salt Lake City and for Utah: Fair Thursday and Friday.

Atmospheric conditions remain quiet throughout the west and northwest, with continued clear skies, and quite an appreciable rise in temperature as a rule. The northern high is settling down over the Dakotas and Minnesota, though its cooling influence is diminishing slightly. Rain was reported from Denver, North Platte, Dodge and Kansas City; heavy rain also occurred on the Texas coast, and showers were reported in the Atlantic states, with rain still falling at 8 p. m. Wednesday.

## NATIONAL IRRIGATION CONGRESS AT PUEBLO WILL BE BIG AFFAIR

PUEBLO, Colo., Aug. 17.—Secretary Arthur Hooker of the National Irrigation congress has made an interesting report to members of the executive committee and the various vice-presidents for the big Pueblo event.

"It gives us pleasure to report satisfactory progress in the arrangements for the coming meeting of the congress. As the time draws near, greater results from the publicity are noticeable, there being an increased demand for special articles in addition to the regular news service."

A general distribution of the official call has been made, although the distribution is not yet completed. The mayors of 221 cities of over 25,000 population and of 133 cities less than that, have been supplied with calls and certificates of appointment, as have 284 boards of county commissioners and 166 commercial bodies. Already a large number of appointments have been made and two bulletins issued, giving the names and addresses to the railroads for the purpose of working up interest and attendance.

Satisfactory progress has been made with the program. A meeting of the program committee will probably be held in August, by which time it will be possible to make fairly definite plans.

A meeting of the executive committee has been authorized for September 24, the Saturday preceding the congress, at which time the board of governors will report progress and progress. A formal call for this meeting will issue later. It is hoped all the members of the executive committee will attend.

**Interest Increasing.**

"The interest in irrigation and the National Irrigation congress throughout the country is greater than it ever has been before, judging from the correspondence that is coming into congress headquarters here.

For instance, more people are asking about the manner of appointment of delegates, and there is more rivalry in communities to get on the lists than ever before. For instance, while one man is writing and asking the manner of appointment, and whether his mayor or the president of his commercial organization

has made appointments, the chances are a list of such appointments from some one or more of the town's appointive sources will be on its way to congress headquarters."

"Although general circulation has been given the official call, there is yet some ignorance as to how appointments are made. The call states that the personnel of the congress will be: Permanent officers of the congress. The president of the United States. Members of the cabinet. Governors of states and territories. Members of national and state legislatures. State commissioners of agriculture and horticulture. The mayor of each city having a population of over 1000. Fifteen delegates appointed by the governor of each state. Five delegates by each city having a population of over 1000 and under 25,000. Five delegates by each board of county commissioners. Two delegates by each mayor of town under 1000. Two delegates from each irrigation, agricultural, horticultural and engineering society. Two delegates from each commercial organization."

"On one recent mail there came to the congress headquarters requests for information from South Bend, Ind., asking as to manner of appointments and as to how the congress and exposition could be helped, and stating that an extra effort would be made to have strong delegations from that section, and from Florida and California and Missouri."

# Here Is the Territory Covered by The Tribune and Telegram's \$10,000 Contest

There are exceptional opportunities in every one of the districts for new candidates

## Importance of Last Special Offer

That candidates have taken hold of the last special offer of this contest and are working harder than ever is best evidenced by the large vote totals that are being rolled up in every district. Subscriptions are coming from every quarter of the contest territory at an unprecedented rate. Despite this fact there is an unparalleled opportunity for new candidates to get busy the few remaining days of the race and still win out. A glance at the vote totals of candidates of some of the country contestants prove this better than words.

There is nothing to be gained by holding subscriptions back until the end of the special offer. All orders turned in are receipted for in triplicate and these copies filed away for future reference and for the judges to check up by. The extra votes will only be issued at the end of the offer—a week from Saturday—and there is no advantage in holding the subscriptions in reserve. This is especially true as subscribers are anxious to get their papers at once.

A standing offer of \$100 in gold to each and every candidate has been made if there is another offer announced after the close of the one which has been outlined in these columns during the past several days.

## YOU MAY HAVE A FRIEND OR RELATIVE IN THIS LIST WHO NEEDS YOUR HELP

You have less than two weeks to assist your favorite win  
—a valuable prize—

Votes included in these totals are the ballots cast up to 4 o'clock Tuesday afternoon. It will be noted that there are some very important changes in the line up of candidates. Nearly a million votes have been polled since last Friday.
